3G-2000

Electric Duct Filter

Technical Specification	
Dimensions WxHxL	561 x 492 x 706 mm
Weight	19,3 kg
Air opening	420 x 420 mm
UVC-llight	Highest Rating (16/16) in MERV/URV classification
Charger	20 W / 8.5 kV
Power supply	220–240 V, 50/60 Hz
Filter media	300 x 300 x 270 mm (8 pockets)
Air flow capacity	2000 m³/h
Efficiency (particles)	99% @0.3 µm 99.9% @1.0 µm
Efficiency (gases)	95 % (2000 m³/h)

- *Effective filtering down to ultra-fine particles*
- *70% less pressure loss than HEPA*
- *Destroys micro-organisms*
- *Includes active carbon for gas adsorption*

ADVANCED FILTRATION
Captures ultrafine particles, dust, allergens, bacteria, viruses and pollution

HEALTHIER AIR
Reduces airborne contaminants and improves indoor air quality

QUIET OPERATION
Designed for low noise and smooth performance

EASY MAINTENANCE
User-friendly design for quick installation and maintenance

ENERGY EFFICIENCY
Low power consumption and low pressure loss
